

Business Profile

With a vision to transform the energy landscape of Africa, Alliance Drilling Ltd. was established to become a key player in the drilling industry.

Introduction Greeting

01

Introduction

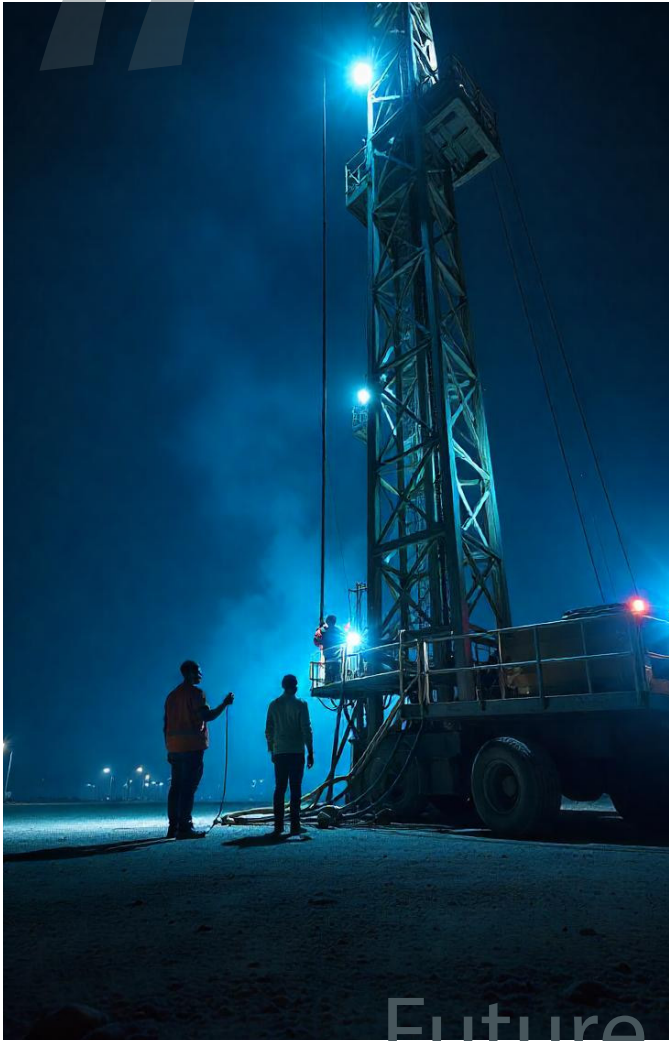

Welcome to Alliance Drilling Ltd., where innovation meets the rich, untapped resources of Africa. Established with a vision to revolutionize the energy sector, our company stands at the forefront of drilling services in Ghana and beyond. From the depths of the ocean to the expanses of the land, we are dedicated to unlocking the vast potential of hydrocarbons, gold, and other minerals across the continent.

At Alliance Drilling Ltd., our mission is clear: to empower local talent, enhance community development, and compete on a global stage by providing top-tier drilling solutions. Our vision is to be the preferred drilling contractor in Africa, known for our commitment to safety, quality, and environmental stewardship.

We pride ourselves on our state-of-the-art technology combined with a deep understanding of the African terrain, both offshore and onshore. Our team, a synergy of local expertise and international experience, drives our operations with a focus on safety, efficiency, and sustainability.

As we delve into the heart of Africa's rich geological tapestry, Alliance Drilling Ltd. is not just extracting resources; we're investing in the future—building capabilities, fostering innovation, and ensuring that our operations contribute positively to the communities we serve. Join us on this journey as we continue to drill deeper, safer, and with more purpose than ever before.

Future Plans

Comprehensive Drilling Solutions

Over the next decade, Alliance Drilling Ltd. aims to evolve into a full-service drilling contractor in Africa, expanding its capabilities in both offshore and onshore operations. This includes scaling up its fleet with advanced, environmentally friendly drilling rigs to cater to the increasing demand from oil and gas operators in a recovering market.

Local Empowerment and CSR

The company plans to deepen its commitment to local communities by enhancing training programs for Ghanaian and African talent, thereby fostering local expertise in the drilling sector. This

aligns with broader industry trends towards sustainability and community engagement, positioning Alliance Drilling as a responsible corporate entity contributing to local economies and environments.

Technological Innovation

Over the next 5-10 years, Alliance Drilling will focus on integrating cutting-edge technologies like automated drilling systems, real-time data analytics for operational efficiency, and environmentally sustainable practices. This move is in response to global calls for reduced carbon footprints and more efficient resource extraction.

Strategic Market Expansion

With Africa poised for growth in oil and gas exploration, particularly in West and North Africa, Alliance Drilling intends to solidify its presence across the continent. This strategic expansion leverages Ghana's geographical advantage for operations extending from Mauritania to Namibia, aiming to capture a significant market share in this burgeoning region.

Adaptation to Energy Transition

While continuing traditional drilling services, Alliance Drilling is also looking to diversify into areas like carbon capture, utilization, and storage (CCUS) or geothermal drilling. This diversification aligns with the global shift towards renewable energy solutions, ensuring the company remains relevant as the energy landscape evolves.

Mission & Vision

Alliance Drilling Ltd. is driven by a mission to unlock the untapped potential of Ghana and the broader African continent by focusing on developing local expertise to meet global standards in the energy sector.

Vision: The company aspires to be the go-to drilling contractor not only in Ghana but across Africa, offering services from deepwater exploration to onshore drilling, ensuring they are at the forefront of industry innovation and sustainability.

Service Offered

03

Drilling Solutions

Technical Consultancy

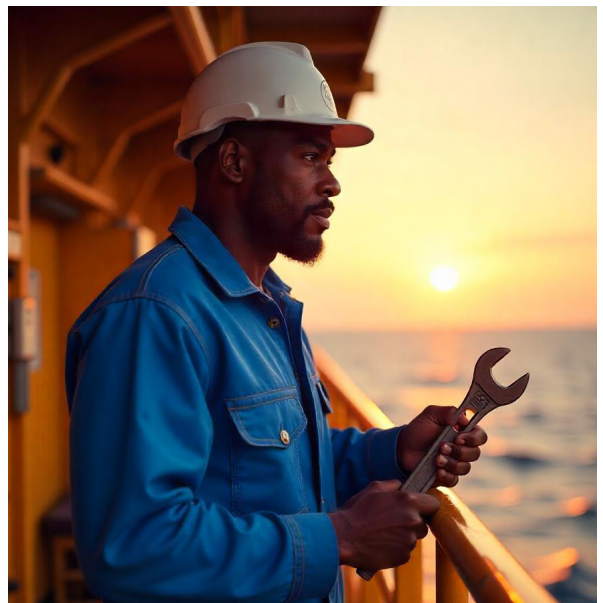

Alliance Drilling provides expert consultancy, leveraging years of experience to help clients optimize their drilling operations, manage risks, and comply with environmental standards.

Offshore Drilling

aligns with broader industry trends towards sustainability and community engagement, positioning Alliance Drilling as a responsible corporate entity contributing to local economies and environments.

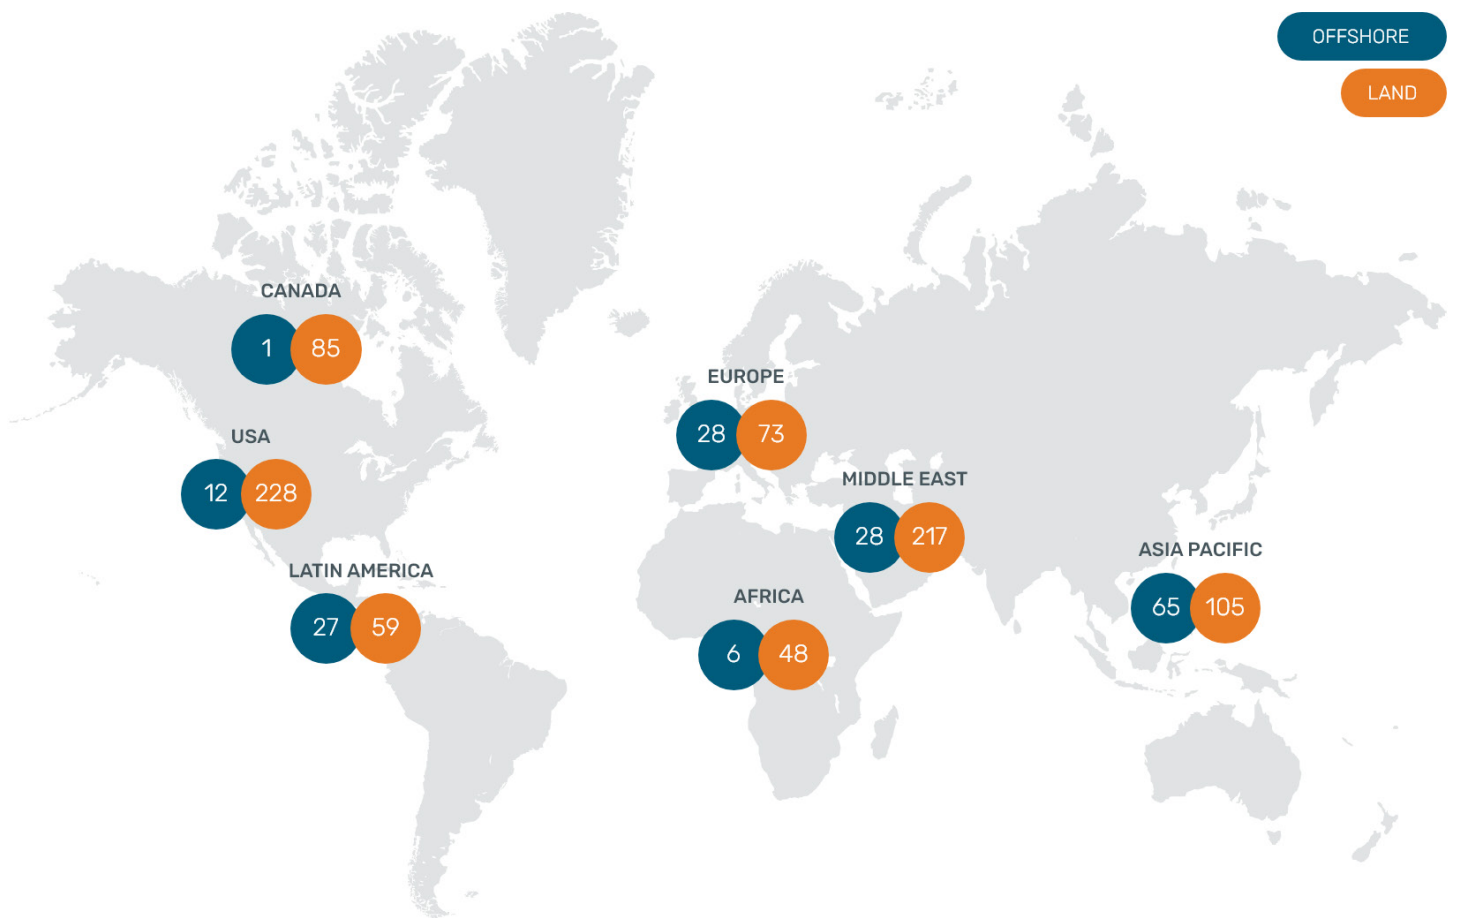

Onshore Drilling

Tailored services for land-based operations, focusing on hydrocarbons, gold, and mineral exploration and extraction.

04

Operational Focus

Human Resources

05

Team Composition

A blend of local Ghanaian talent with international experts, fostering a culture of knowledge transfer and skill development.

Training & Development

Committed to continuous education, Alliance Drilling invests in training programs to enhance the technical and operational capabilities of its workforce, aiming for global competitiveness.

Health, Safety, & Environment (HSE)

Safety Culture and Practices

Zero Harm Vision: Alliance Drilling Ltd. commits to a future where no harm comes to its employees, contractors, or the environment. Over the next decade, this vision will be reinforced through continuous enhancement of safety protocols, rigorous training programs, and the adoption of industry-leading safety technologies.

Risk Management: Proactive risk assessment will be a cornerstone of operations, with a focus on identifying potential hazards before they lead to incidents. Advanced simulation and predictive analytics will be employed to foresee and mitigate risks in both current and new drilling environments.

Health Initiatives

Employee Wellbeing: Beyond physical safety, the company will expand its focus on mental health and overall wellbeing. This includes regular health check-ups, stress management programs, and fostering a supportive work environment, recognizing the long hours and high-pressure nature of drilling operations.

Emergency Response: Upgrading emergency response capabilities with specialized training, simulation drills, and strategic partnerships for immediate medical support in remote drilling locations.

Environmental Stewardship

Sustainable Drilling Practices: Alliance Drilling aims to lead by example in minimizing environmental impact. This involves using eco-friendly drilling fluids, reducing waste, and implementing closed-loop systems for drilling mud to prevent contamination of marine and land environments.

Carbon Footprint Reduction: The company will invest in technologies and practices that lower greenhouse gas emissions, such as energy-efficient rigs, renewable energy sources for operational power, and exploring carbon capture technologies related to drilling activities.

Biodiversity Conservation: Operations will include measures to protect local ecosystems, with studies and plans to preserve biodiversity in areas of operation. This might include habitat restoration projects or offsetting impacts through conservation initiatives.

(CSR) Corporate Social Responsibility

06

Community Engagement

Beyond business, Alliance Drilling aims to uplift the communities where it operates by developing CSR initiatives focused on education, health, and environmental conservation.

Empowerment Programs

Our CSR strategy includes empowering employees to lead community projects, ensuring that the benefits of their operations extend to the local populace.
